

Some may have heard a story about
The God that can heal all wounds
We're here to say "Yes" all the stories are true
A blameless Man a friend of mine has given me and you
A story to tell about His love that can make you new

How can one stay silent
about this wonderful miraculous love
Oh we've seen His power
That came down to seek and save
Just ask the woman at the well and
ask Lazarus who rose from the tomb

Just ask 'em just ask 'em
There's evidence everywhere

There's never been a love more perfect than this
Oh it casts out terror and it casts out demons
As a matter of fact we wouldn't be
standing here without it
Praise His name it is our song

He's the greatest gift He embodied love
When we sing about how we're grateful
We're talking bout' Jesus

How can one stay silent
about this wonderful miraculous love
Oh we've seen His power
That came down to seek and save
Just ask the woman at the well and
Ask Lazarus who rose from the tomb

Just ask 'em just ask 'em
There's evidence everywhere

(Oh)

He's been so good
It's in His nature
Our God comes through

He'll never fail you
He's El Shaddai God Almighty
He'll heal your mind
He's raising bodies

He's been so good
It's in His nature
Our God comes through
He'll never fail you
He's El Shaddai God Almighty
He'll heal your mind
He's raising bodies

He's been so good
It's in His nature
Our God comes through
He'll never fail you
He's El Shaddai God Almighty
He'll heal your mind
He's raising bodies

He's been so good
It's in His nature
Our God comes through
He'll never fail you
He's El Shaddai God Almighty
He'll heal your mind
He's raising bodies

(Oh)

(If He's done it before
He can do it again)

How can one stay silent
about this wonderful miraculous love
Oh we've seen His power
That came down to seek and save
Just ask the woman at the well and
Ask Lazarus who rose from the tomb

Just ask 'em just ask 'em
There's evidence everywhere

How can one stay silent
About this wonderful miraculous love
Oh I've seen His power
That came down to seek and save
I'm like the woman at the well
I'm like Lazarus who rose from the tomb

Just ask me Just ask me
There's evidence everywhere
