## Intro:

## Verse 1:

I pray that my soul knows it's savior  
When I'm feeling afraid I remember who you are to me  
The skies proclaim the works of your hands and the  
Same hands that painted them made me

## Chorus:

Oh my heart just remember the God that you serve  
See not winds and waves but look straight on to the  
Glorious way

## Turnaround:

## Verse 2:

Your word is always constant and I pray that I never  
Fail to believe when you speak  
So I'll speak life until I believe

## Chorus:

Oh my heart just remember the God that you serve  
See not winds and waves but look straight on to the  
Glorious way

## Instrumental:

## Bridge:

Your name has power oh my Jesus  
Darkness has to flee  
You became sin to bring salvation  
What's over me is under your feet  
You put death in its place my Jesus  
Conquered hell and grave  
Tor the veil to dwell among us  
The battle is already won

(Alt chords for second half)  
You put death in its place my Jesus  
Conquered hell and grave  
Tor the veil to dwell among us  
The battle is already won

## Chorus:

Oh my heart just remember the God that you serve  
See not winds and waves but look straight on to the  
Glorious way
