

I respond to the act of love
Where my failures were lost in the blood
My fall was great
Your will was greater
You've rescued me
So I believe

How my Savior is rich in grace
Had salvation flow through His veins
The cost was great
Your life was greater
You've ransomed me
So I believe

You hold the power and the victory
Over death and the grave
That means new life for me
Your final breath said it's finished
Now I'll live like it is
Oh my God is risen

What You did on the cross still speaks
With arms wide open for me You reach
My scars were deep
Your scars were deeper
Oh I believe
You're healing me

You hold the power and the victory
Over death and the grave
That means new life for me
Your final breath said it's finished
Now I'll live like it is
Oh my God is risen

Yes, I believe in the resurrection
Yes, I believe in the power of Your spirit
The same spirit that raised the Son
Is the power I'm standing on

Yes, I believe in the resurrection
Yes, I believe in the power of Your spirit
The same spirit that raised the Son
Is the power I'm standing on

Yes, I believe in the resurrection
Yes, I believe in the power of Your spirit
The same spirit that raised the Son
Is the power I'm standing on

You hold the power and the victory
Over death and the grave
That means new life for me
Your final breath said it's finished
Now I'll live like it is
Oh my God is risen

You hold the power and the victory
Over death and the grave
That means new life for me
Your final breath said it's finished
Now I'll live like it is
Oh my God is risen

Oh my God is risen

Yes, I believe

Yes, I believe

Yes, I believe my God is risen
