

Union [Lyrics]

[Demo Version] by Josh Miller, Nyssie Linares, Steven Gomez, Moriah Nepstad

Verse

I've acquired this oil
in the crushing
in the pressing
Make my heart good soil
you can prune me
you can use me

Pre-Chorus:

Make me ready ready ready for you
Make me ready ready ready for you

Chorus

What a union
What a union
My heart awakens
to the sound of your coming

Verse

I pour out my oil
I won't save it,
let it cost me.
Let the whole room stare
'Cause what we have is something sacred

Pre-Chorus

I am ready ready ready for you
I am ready ready ready for you

Chorus

What a union
What a union
My heart awakens
to the sound of your coming
What a union
What a union
My heart awakens
to the sound of your coming

Interlude

Bridge

Make your church purified
Washed in red dressed in white
All for your coming, all for your glory

May my days fulfill their vow
All my life be laid down
All for your coming, all for your glory

Make your church purified

Union -

Washed in red dressed in white
All for your coming, all for your glory

May my days fulfill their vow
All my life be laid down
All for your coming, all for your glory

Chorus

What a union
What a union
My heart awakens
to the sound of your coming

What a union
What a union
My heart awakens
to the sound of your coming
